ECONOMY WEBSITE PACKAGE

Do you run a Small Business and want to have a web presence?

You need a website

- Have web presence which gives you credibility in competitive markets
- Present your value propositions to customer
- Provide Online Product lists (like Menu Card, Products and Services offered, etc)
- Online integration with Shipping and Integration services
- Provide detailed location information for your outlet and offices.

WEBSITE STANDARD PACKAGE

We provide you with below modules in our standard package and you are provided with multiple templates to select your design

Sliders:

These are static or moving banners which displays your pictures. They can be changed easily by you anytime.

Deals and Offers:

On the main page we provide you a section where you can display your Top deals, Best offers with images, text, validity etc.

Order Now Page:

This will have links to standard ordering and delivery services like Amazon, other Ecommerce portals, Uber, Just eat etc.

Description:

Provide a brief description and your highlights on the main page

List Card:

We provide you a dynamic list card (not scanned image), where you can enter your product, services, menu items by category and update the prices anytime yourself.

Contact us page:

Your address, Map, direction, contact numbers etc.

About us:

Detailed text, your history, your customer loyalties and other information goes on this page.
